

## Wireframing & Prototyping

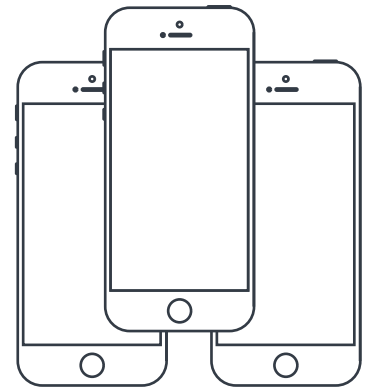

As Creative Director at VUID, Inc. I created wireframes and prototypes for two major design overhauls of the Spotlight App, working closely with developers, and our CEO to make sure the products were practical, user-friendly, and had all the key components highlighted

### Tools:

- Pen and Paper (and lots of sticky notes)
- Illustrator
- InVision, Wireframe.cc, and Flinto

## Design & Illustration

- Designed flat graphics and transitions for two major overhauls of the Spotlight App (in development).
- Created all promotional materials for the Spotlight App (an A-frame, one-page briefs, and more).
- Created numerous slide-decks (illustrations and designs) for the Spotlight App and VUID, Inc.
- Designed landing page for the Spotlight App and email materials.

### Tools:

- Pen and Paper
- Photoshop
- Illustrator
- Framer (CoffeeScript)
- Sketch
- InVision
- InDesign

## Programming

- Coded HTML emails I designed and implemented
- Prototyping animations for the Spotlight App with Framer Studio in CoffeeScript
- Website for the very letter you came here from!

### Tools:

- HTML
- CSS
- CoffeeScript
- some JavaScript

## Education

Swarthmore College, B.A, in Computer Science and Art, May 2014

### Tools:

- Python
- C++/C
- Adobe Suite
